REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: each claimed feature including a fuel cell producing electrical energy from liquid fuel supplied to the cell is not found in the prior art either singly or in combination. Support for this amended feature is adequately enabling, as discussed by applicants, in response to an earlier Office action. The closest prior art reference is Kearle et al. (US 2004/0081871) which discloses each of the independently claimed features except that electrical energy is not produced from liquid fuel supplied to a fuel cell. Other prior art references cited in this action contain one or more elements of the claimed invention, but not the necessary motivation, suggestion, or teaching to obviate and/or anticipated the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen Gravini whose telephone number is 571 272 4875. The examiner can normally be reached on normal weekday business hours (east coast time).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kenneth Rinehart can be reached on 571 272 4881. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
